Northeastern in California

Northeastern University is granted approval to operate under the terms of California Education Code (CEC) section 94890(a)(1) per CEC section 94890(b). The Bureau for Private Postsecondary Education (BPPE) determines Northeastern to be in compliance with the requirements of Title 5, California Code of Regulations (CCR) section 7139. Any questions a student may have that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education at 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, www.bppe.ca.gov, toll-free telephone number (888) 370-7589 or by fax (916) 263-1897. A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 toll-free or by completing a complaint form, which can be obtained on the bureau's internet website www.bppe.ca.gov.

Disclosures

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, CA 95834, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law. However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Programs

Northeastern University in Silicon Valley offers the following programs on ground at our campus. For more information, please visit the [campus website](#).

Align Master of Science in Computer Science

Pivot into a career in tech, or build on an existing career with a new set of skills — no matter what you studied as an undergraduate. The Align program, from the Khoury College of Computer Sciences, pairs bridge courses with our standard CS academic curriculum and elective specializations.

Align Master of Science in Data Science

Be at the forefront of the rapidly-expanding field of data science, or bring a data specialization into your existing career. Students from any undergraduate major and professional path take a series of bridge courses followed by our standard DS curriculum in the Align program, from the Khoury College of Computer Sciences and the College of Engineering.

Master of Science in Information Systems — Bridge

Open to students of any undergraduate major, the Information Systems Bridge program from the College of Engineering provides a pathway into several concentrations: general information systems, user experience, big data systems and analytics, smart contracts, or intelligent systems. Students take bridge courses and then enter the standard IS curriculum.

Master of Science in Computer Science

The Master of Science in Computer Science degree, from the Khoury College of Computer Sciences, is designed for experienced professionals seeking to enhance their knowledge and expand their technology leadership. The program combines both computing and important application domains—enabling you to increase your broad-based knowledge in the field while focusing on one of three featured specializations: software engineering, artificial intelligence or human-computer interaction.

Master of Science in Data Science

An extensive core curriculum—designed jointly by Khoury College of Computer Sciences and the College of Engineering faculty—enables you to develop depth in computational modeling, data collection and integration, data storage and retrieval, data processing, modeling and analytics, and visualization.

Master of Science in Information Systems

In the Master of Science in Information Systems program, you will embark on an IT leadership pathway as a more evolved, dynamic software engineer. You will design groundbreaking software solutions that fit within the complexities of the business world and solve the humanistic needs of the people who use them.

Master of Science in Cyber-Physical Systems

The Master of Science in Cyber-Physical Systems with a concentration in the internet of things prepares our graduates for a world of connected devices. This innovative multidisciplinary program is designed to meet the demand for a new kind of specialist, one who can engineer new interactive services, acquire, fuse, and process the data collected from sensors, actuators, controllers, and other devices, and develop architectures to interconnect these elements as part of larger, more diverse systems.

Master of Science in Project Management

Without skilled project managers, companies struggle to deliver projects on time, on a budget, and according to specifications. From inception to completion, you'll learn how to manage every step in the process. Our Master of Science in Project Management will prepare you to own that role across a range of industries.

Master of Professional Studies in Analytics

The program prepares students with a deep understanding of the mechanics of working with data (i.e., its collection, modeling, and structuring) along with the capacity to identify and communicate data-driven insights that ultimately influence decisions.

Academic Standards

Academic standards vary by college and program; students are responsible for remaining in contact with their faculty and academic advisors to maintain awareness of their standing.

Official Withdrawal Adjustments

Students who officially withdraw, either from a course or from the university, during an academic term will receive a tuition refund based on the policy specified [in the Graduate Catalog](#).

Institutional funds awarded by Northeastern University will be adjusted based on the actual charges incurred during the semester. Funds from federal Title IV programs will be returned to the government according to federal regulations. The federal government Return of Funds Policy dictates that a student's eligibility for federal financial aid is determined by the number of days enrolled during the semester. The refund will be calculated from the day the student submits an official notification of withdrawal to the Office of the Registrar.

Tuition credits are granted through the first five weeks of a semester or first four weeks of a half semester, based on the date of the official withdrawal processed by the Office of the Registrar. Nonattendance does not constitute official withdrawal. Credit policies vary according to the duration of the course. Typical tuition adjustments are made according to the following schedule. (The end of week three corresponds with the last day to drop a class without a W grade.)
